ABOUT US: We founded RJC Commercial Janitorial in 1988 to provide dependable, quality commercial cleaning services to the Baltimore-Washington Corridor. By focusing on outstanding customer service, the company has experienced strong consistent growth throughout the past 34 years. In 2009, Nancy Creel purchased the controlling shares of the company and became the president. We added the division Cleanroom Solutions in 2001 to apply our trademark quality cleaning to clean rooms when we recognized a considerable gap in the market for these services.
